

Board of Contract Appeals United States Department of Agriculture

ORDER

SUBJECT: Receipt of materials at the Board

For several weeks, the Board has received no mail from the Postal Service because of screening procedures in place at this Department. Also, materials sent by private services often have been delayed in delivery to the Board because of screening procedures. The Board issues this order to advise parties that notices of appeals or other materials sent by a method which reasonably would have permitted timely delivery, but for these delays, will not be deemed untimely filed.

HOWARD A. POLLACK

Acting Chair
